

33. Seminar cum Workshop on Python Computing: Some Applications in Mathematical Physics

Name of the Program	Seminar cum Workshop on Python Computing: Some Applications in Mathematical Physics
Resource Persons	1. Dr. Abhijit Km Gupta, Assistant Professor, Dept. of Physics, Panskura Banamali College 2. Dr. Ananda Dasgupta, Associate Professor, Dept. of Physical Sc., IISER, Kolkata
Organising Department	Physics
Date	28.02.2020
Venue	College Auditorium
Beneficiaries	50+

Report of the Program

Python is a versatile and user-friendly programming language, and has gained prominence in classrooms worldwide. The reason is simple: it offers students a gateway to the world of coding and computer science. This, in turn, aligns with the surging demand for coding skills in the modern workforce.

This seminar on “python computing” was organised by department of Physics, Basanti Devi College, mainly for teachers of a wide number of

Indrila Guha

colleges to boost their knowledge in Python and teach programming at undergraduate level.

They had the opportunity to have in-depth knowledge and understanding of computer programming from the experts in this field. It was attended by more than 50 teachers from all over West Bengal.

Teachers equipped themselves with the programming skills needed for improvement of their future classroom teaching.

Highlights of the Program

Seminar cum Workshop on Python Computing: Some Applications in Mathematical Physics

University of Calcutta

One day Seminar cum Workshop on
Python Computing
Some Applications in Mathematical Physics

28 February (Friday) 2020
10.30 AM onwards

ORGANIZED BY DEPARTMENT OF PHYSICS

Resource Persons

Dr. Abhijit Kar Gupta
Assistant Professor
Department of Physics
Panskura Banamali College

Dr. Ananda Dasgupta
Associate Professor
Department of Physics
IISER, Kolkata

Venue
College Auditorium (Room 309)
Basanti Devi College
147B Rash Behari Avenue, Kolkata -700029
